

# MT6 Section 2

## Search and Secure Procedure

- 1) A and B close gate, reset S&S #1, and searching aisle leading to enclosure.
- 2) A moves to a position where the west and east enclosure entrances can be monitored.
- 3) B searches the hut and the area downstream of the hut.
- 4) B searches the alcove to the east of the final dump and resets S&S #2.
- 5) B moves to a position where the west and east entrances can be monitored.
- 6) A searches the upstream section of the enclosure and proceeds to the entrance of the west labyrinth.
- 7) B joins A and they exit via the west labyrinth.
- 8) A and B reset S&S #3.
